MANAGEMENT STRUCTURE

The key focus of our organization is adherence to the new procurement act insofar as previously disadvantaged individuals and are concerned to grant everyone the opportunity to development, especially in the field of civil engineering.

“ to grant everyone the opportunity to development in the field of civil engineering. ”

 MISSION

The mission of our company can be summarized as follows:

- to render a professional service to all our clients with regard to:
 - design and supply of civil engineering services
 - water network and sewer schemes
 - waste management
 - roads and storm water
 - housing
 - other community development related projects;
- to facilitate engagement of previously disadvantaged enterprises and communities;
- the use of labour friendly technologies when circumstances allow;
- to encourage participation and competition in contracts;
- to develop skills locally through partnerships and joint ventures;
- manage contracts in such a way to benefit persons or categories of persons historically disadvantaged on the basis of race, gender or disability;
- to assist in training PDI's in the civil engineering field in a practical or theoretical way.
